IWTMA, Messe Husum sign MOU along with IGEP

IWTMA and Messe Husum along with Indo German Export Promotion Council (IGEP) have joined hands for supporting renewable energy and promoting sustainable environment. The two bodies who have been associated with encouraging and producing the renewable resources signed a Memorandum of Understanding (MOU) to strengthen their co-operation for supporting this development. The main objective for both IWTMA and Messe Husum is to support the strengthening of business relations between Indian and German companies and to facilitate the transfer of state-of-the-art technologies. In addition, systematic market research will be carried out to identify products which can be manufactured in India at internationally competitive conditions in line with the 'Make in India' concept.
